

Students in Foster Care

The board recognizes that students in foster care experience mobility in and out of the foster care system and from one home placement to another that disrupts their education, thereby creating barriers to academic success and on-time graduation. Through collaboration with state, local and/or tribal child welfare agencies, the district will strive to minimize or eliminate educational barriers for students in foster care, particularly with regard to enrollment, transfer of student records, and transportation to their school of origin.

Point of contact

The superintendent or designee will designate an appropriate staff member to serve as the district's point of contact for local child welfare agencies if such agencies notify the District in writing that they have designated a point of contact for the District. The point of contact will work with appropriate state, local and/or tribal child welfare agencies to receive notifications and share information regarding the status and progress of students in foster care. The point of contact will also work collaboratively with the district's Title I coordinator to provide supports for students in foster care that are enrolled or seeking to enroll in the district.

Enrollment

Whenever practical and in the best interest of the child, children placed into foster care will remain enrolled in the school they were attending upon entering foster care. When a determination of the student's best interest is necessary, it will take into account a number of factors as described in the procedures that accompany this policy, including concern for the student's safety as well as the availability of supports for the student's educational success. Such a determination should involve a district representative, a representative of the appropriate child welfare agency, the student, and the student's biological and foster families, if reasonably feasible. If remaining in the school of origin is determined not to be in the student's best interest, the district will immediately enroll that student in their new

school. Enrollment may not be denied or delayed based on the fact that documents normally required for enrollment have not been provided. A school may not prevent a student in foster care from enrolling based on incomplete information of any history of placement in special education, any past, current, or pending disciplinary action, any history of violent behavior, or behavior listed in RCW 13.04.155, any unpaid fines or fees imposed by other schools, or any health conditions affecting the student's educational needs during the ten (10) day period that the Department of Social and Health Services has to obtain that information. Upon enrollment, the district will make reasonable efforts to obtain and assess the child's educational history in order to meet the child's unique needs within two (2) school business days.

Records Transfer

When a student in foster care transfers schools, whether within the district or to another school district, the enrolling school will immediately contact the sending school to obtain Policy No. 3116 Students Page 2 of 4 academic and other records. The sending school will respond as soon as possible to requests it receives for records of students in foster care. Additionally, upon receipt of a request for education records of a student in foster care from the Department of Social and Health Services, the district will provide the records to the agency within two (2) school days.

Transportation

The district will collaborate with state, local or tribal child welfare agencies, as appropriate, to implement a written transportation procedure by which prompt, cost-effective transportation will be provided, arranged and funded for students to remain in their school of origin when in their best interest for the duration of their time in foster care. The written procedure will ensure that if additional costs are incurred in providing transportation, the district will provide transportation to the school of origin if: 1) the child welfare agency agrees to reimburse the transportation; (2) the district agrees to pay for the cost of the transportation; or 3) the district and the child welfare agency agree to share transportation costs.

Review of unexpected or excessive absences

A district representative or school employee will review unexpected or excessive absences of students in foster care and those awaiting placement with the student and adults involved with the student, including their caseworker, educational liaison, attorney if one is appointed, parent, guardian and foster parents. The purpose of the review is to determine the cause of the absences, taking into account: unplanned school transitions, periods of running from care, inpatient treatment, incarceration, school adjustment, educational gaps, psychosocial issues and unavoidable appointments during the school day. The representative or employee will take proactive steps to support the student's school work so the student does not fall behind.

Facilitating on-time grade level progression

The district will:

- 1) waive specific courses required for graduation for students in foster care if similar coursework has been satisfactorily completed in another school district; or
- 2) provide reasonable justification for denial of the waiver.

In the event the district denies a waiver and the student would have qualified to graduate from their sending school district, the district will provide an alternative process of obtaining required coursework so that the student may graduate on time. The district will consolidate partial credit, unresolved, or incomplete coursework and will provide students in foster care with opportunities to accrue credit in a manner that eliminates academic and nonacademic barriers for the student. For students who have been unable to complete an academic course and receive full credit due to withdrawal or transfer, the district will grant partial credit for coursework completed before the date of the withdrawal or transfer. When the district receives a transfer student in these circumstances, it will accept the student's partial credits, apply them to the student's academic progress or graduation or both, and allow the student to earn credits regardless of the student's date of enrollment in the district.

In the event a student is transferring at the beginning of or during their junior or senior year of high school and is ineligible to graduate after all alternatives have been considered, the district will work with the sending district to ensure the awarding of a diploma from the sending district if the student meets the graduation requirements of the sending district.

In the event a student enrolled in three or more school districts as a high school student, has met state requirements, has transferred to the district, but is ineligible to graduate from the district after all alternatives have been considered, the district will waive its local requirements and ensure that the student receives a diploma.

Procedures and Review

The superintendent or his/her designee will establish procedures for implementing this policy.
